Activities . . . 17

As apathy grows and dissatisfaction increases we ask ourselves, as well as each other, that perpetual question - why?

Even the most discerning student at times questions the reasoning behind compulsory attendance to this four-year institution.

We question its purpose - and its benefits.

But if school does not educate, it at least exposes. It gives each of us an opportunity for awareness we might possibly have missed. But perhaps more important, it gives us a chance to evaluate our new awareness.

To determine our own interests.
To establish our own priorities.

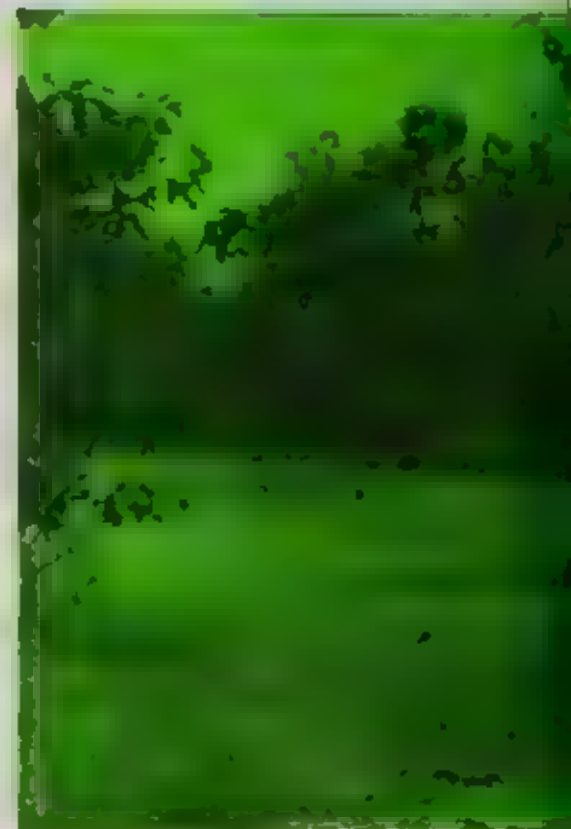

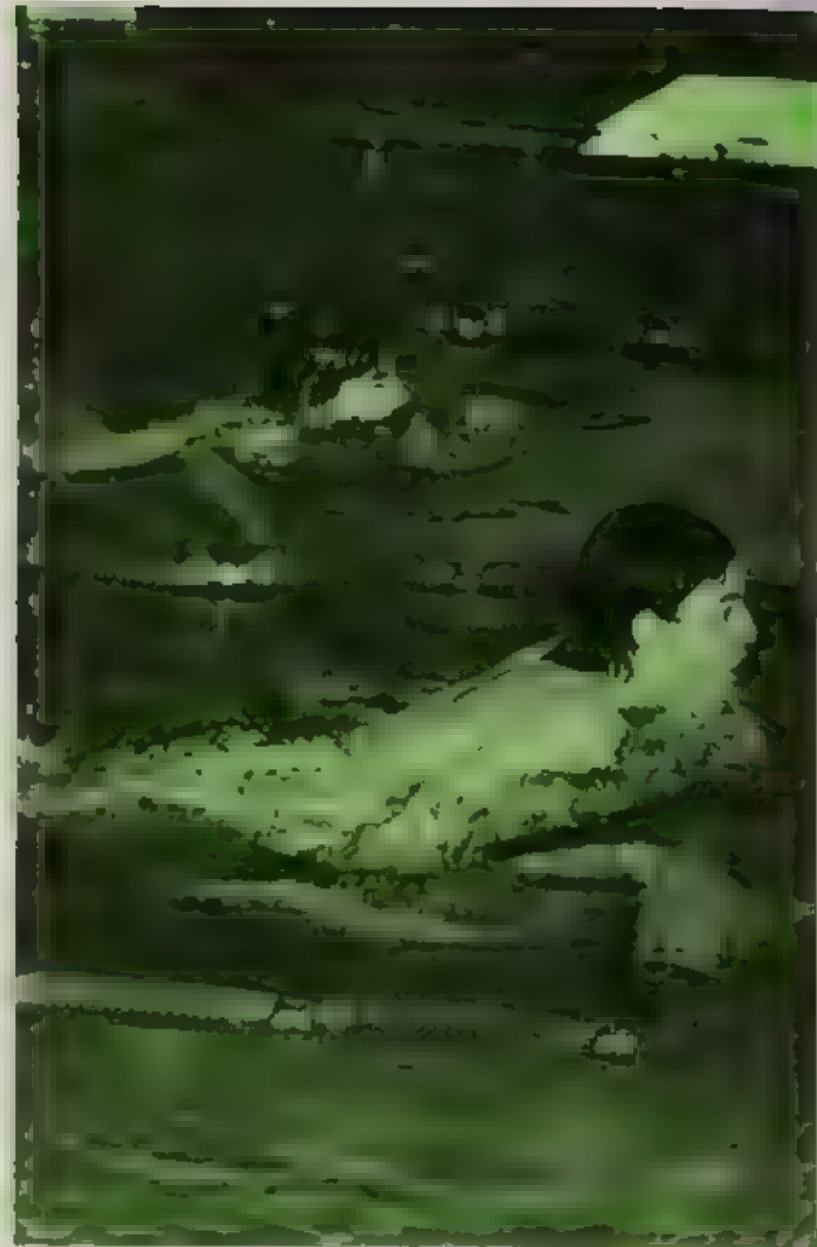

Although many cannot survive under heavy class schedules, there are those who develop deep involvements in some of the many academic subjects.

We can determine our own interests as we pass through our required courses into more specific majors and minors - to search, in greater depth, for the areas in which we naturally excel.

With this search comes the exposure to the fine arts - from which customs and cultures emanate. Culturally based classes and organizations serve to broaden our scope and provide yet another opportunity for achieving proficiency.

THEY WERE SO CLOSE TOGETHER

 EVEN WHEN THEY WERE IN THE

2. **Develop the most important responses to**
global challenges people face themselves.

We are forced to open development
possibilities - social, economic and racial

We are compelled to develop ourselves

Develop ourselves and values
to be ourselves - we choose also

We are forced to develop
to develop - we don't simply

We have no choice but to. We must
develop our decisions

We must establish our priorities

The Editor-In-Chief

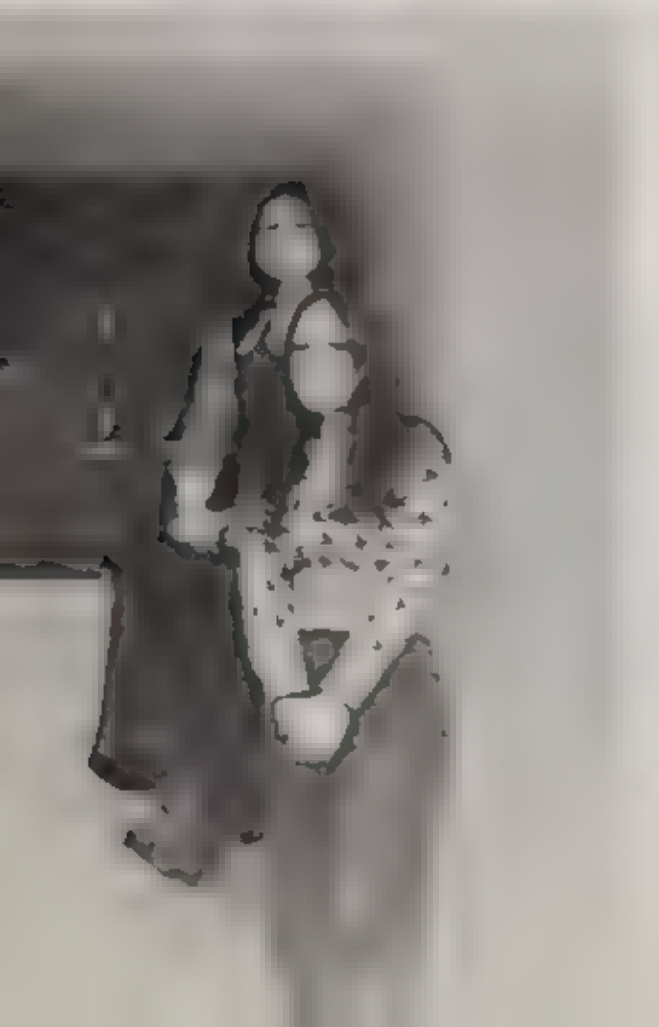

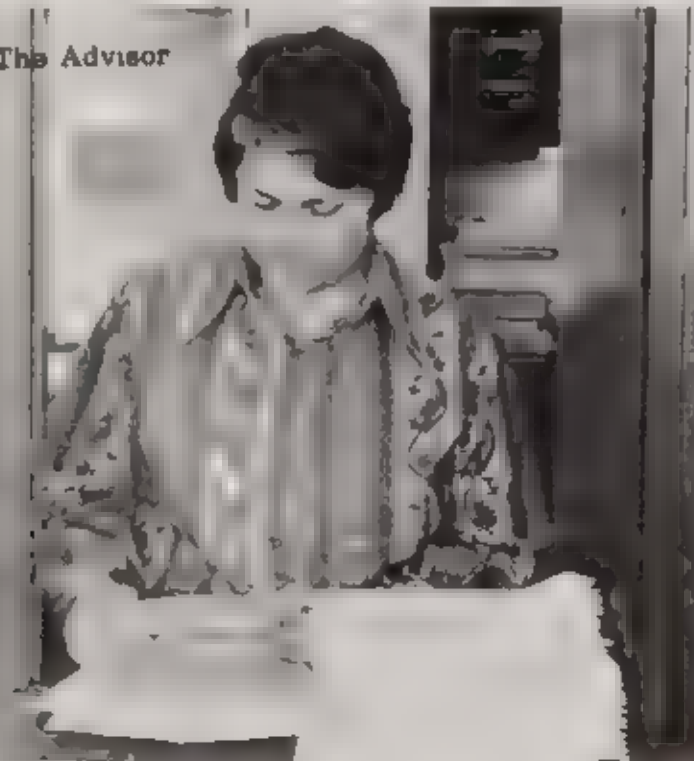

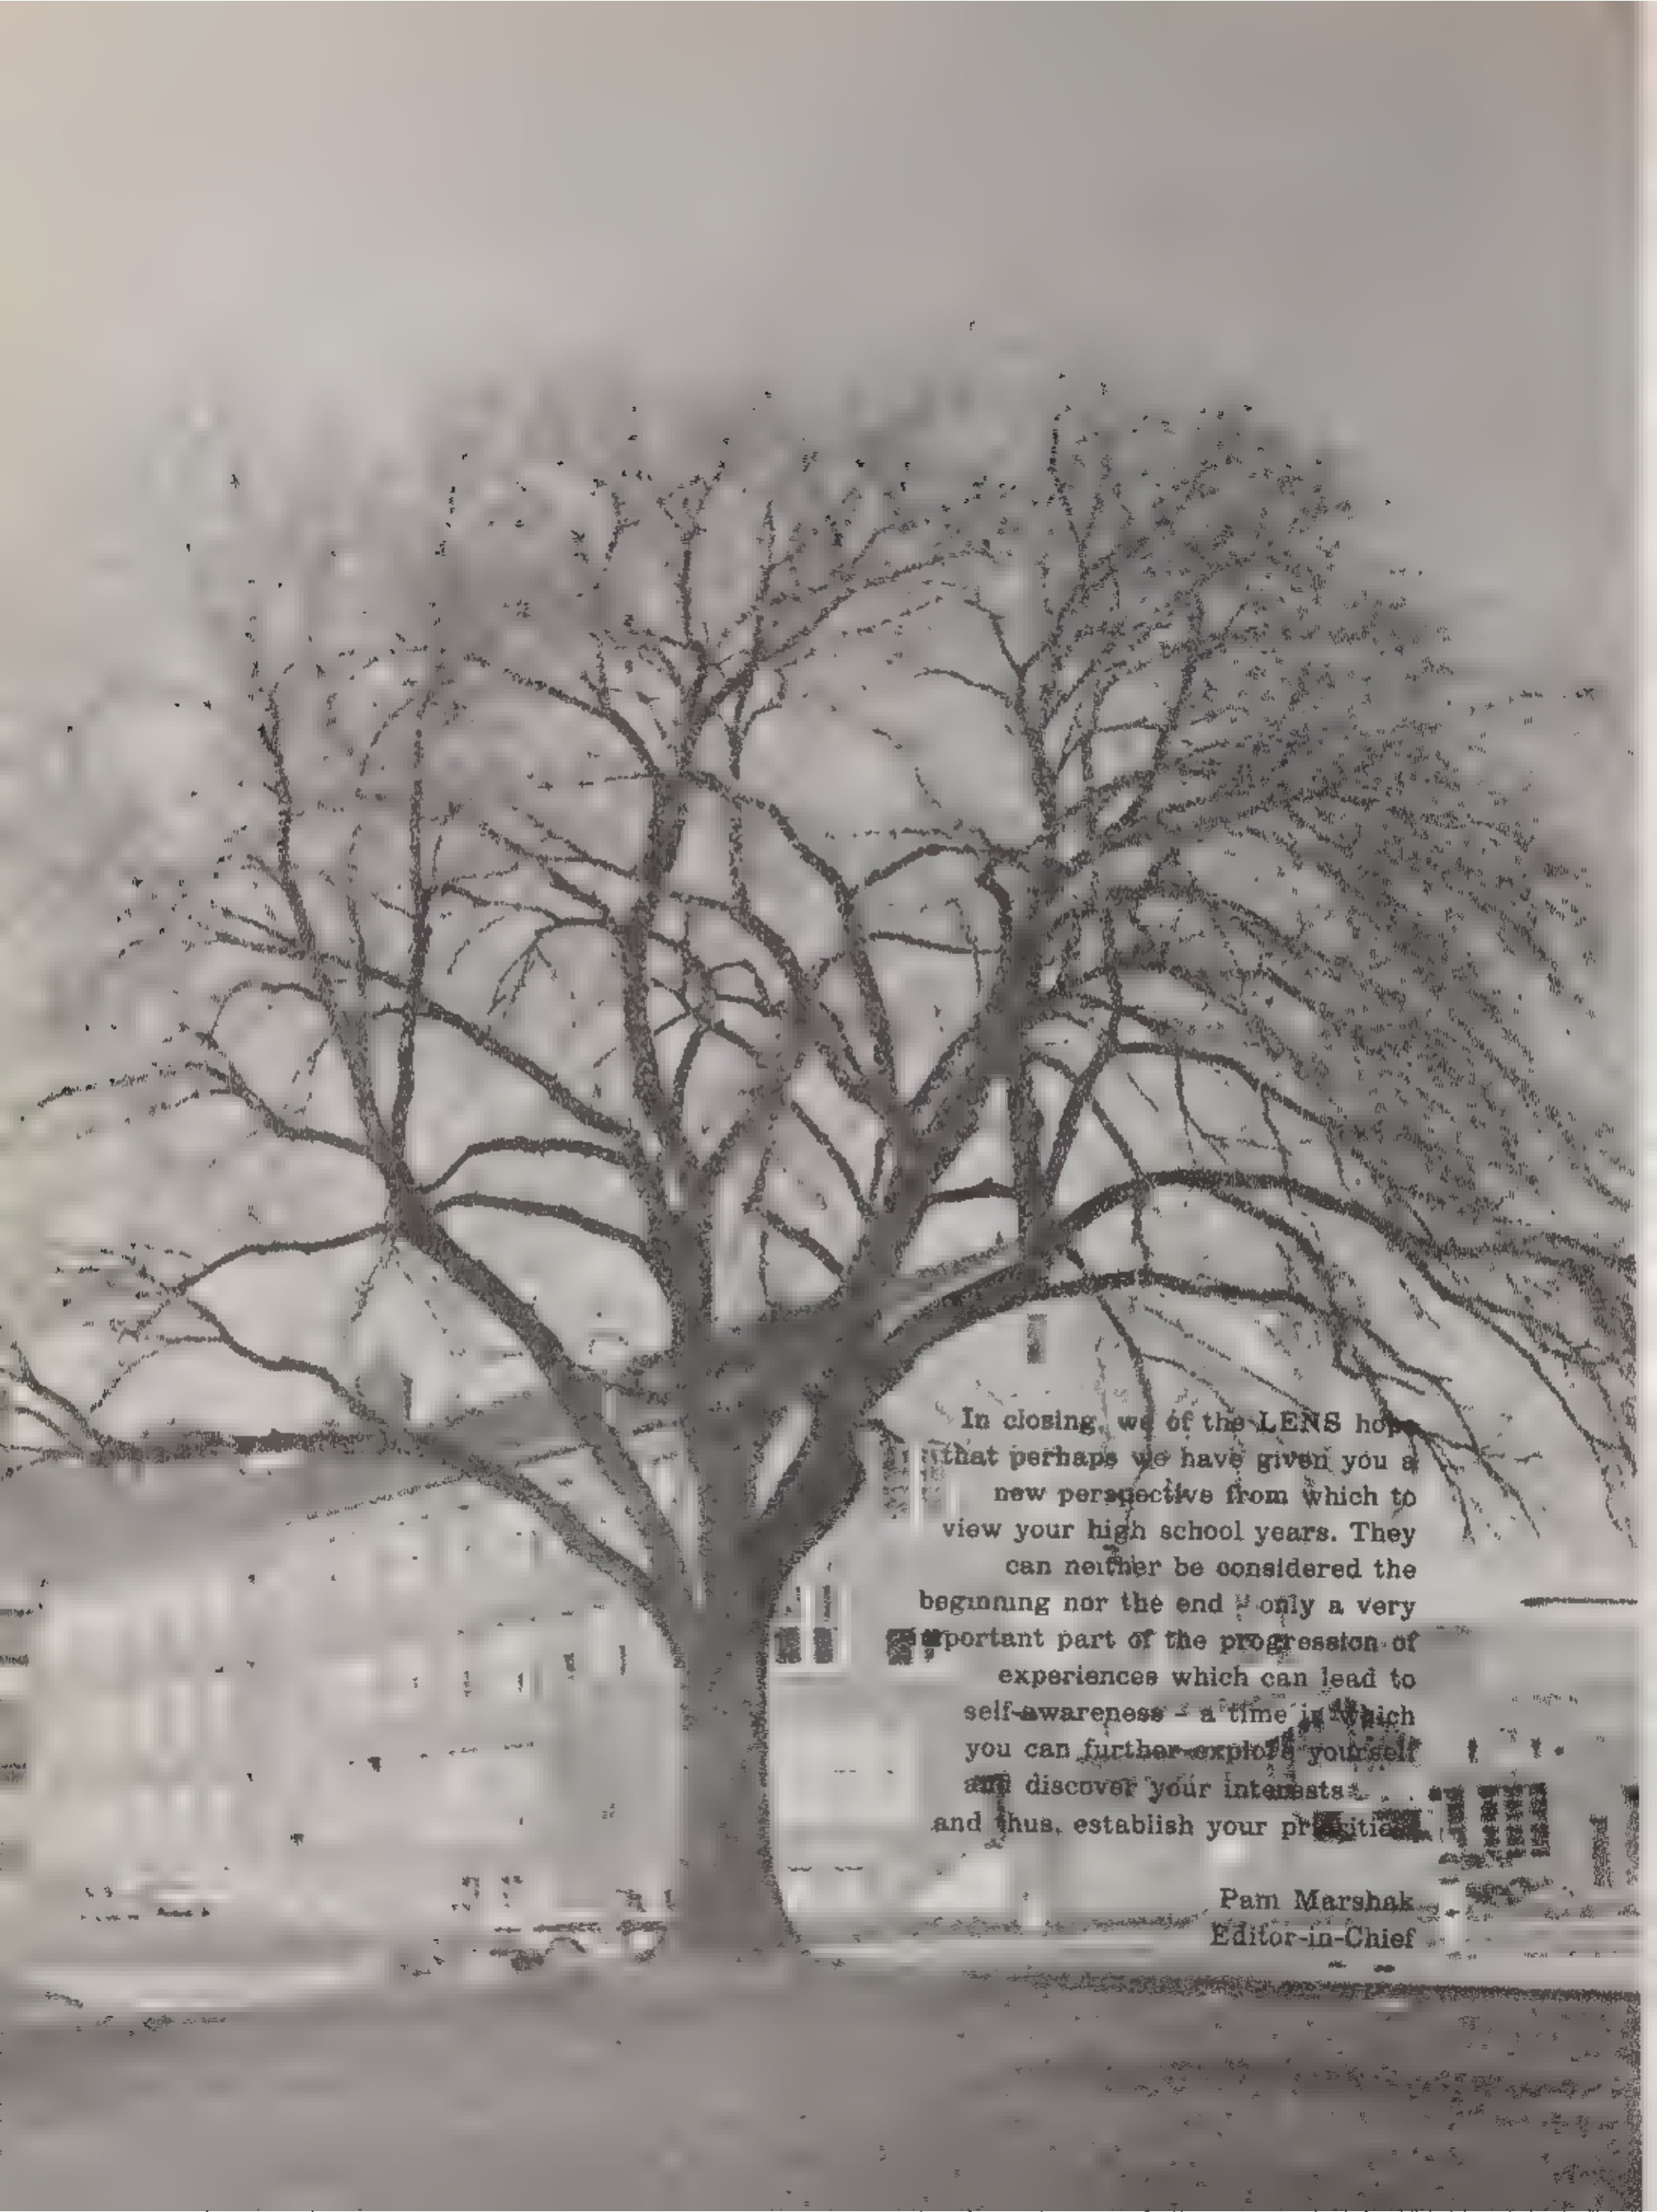

Thank-you.

These are two little words that seem so worn-out, so meaningless. I wish I could think of some better ones for at this time of expressing gratitude, I find their inadequacy especially hard to accept. Nevertheless, I must use them, but I say them with my heart, in hope that my meaning can overcome their usual insignificance.

And so, to my staff, who has had to put up with me for a whole year; To Liz and Sue, for their assistance which was so essential to my sanity; To Miss Wit, who has expanded my concepts of friendship and dedication, and has shared with me my defeats and victories even more this year than ever before; To Mr. Moorhead and Root Studios for their help; And to Koz, Bush, Trish, and my ever-present little cloud, as well as to all of my friends without whose invaluable comfort and understanding deadlines would have been even more impossible, I say
Thank-you.

The Advisor

In closing, we of the LENS hope
that perhaps we have given you a
new perspective from which to
view your high school years. They
can neither be considered the
beginning nor the end, only a very
important part of the progression of
experiences which can lead to
self-awareness - a time in which
you can further explore yourself
and discover your interests
and thus, establish your priorities.
